Amhara the victim of Tigrayan politics
Getachew Reda (editor Ethiopian Semay)

Here under this document, I like all Ethiopians to compare yourself to judge what the so called ‘equal’ development implemented in Tigrayans and Amhara zones.

The unequal, unjust and discriminative development is here shown on this document for you to judge. I do not want to go further to detail more than the film which is talking to itself. Check those two filmed documents to see how Tigrayans are beneficiary under TPLF more than any one of the Ethiopian ethnic zones. See how the Amhara society are eveicted from many Ethiopian cornersfelt sad, hpless, desperate, their children evicted from school they were attending and thrown out to the street. The photo shown “Tigray:10 folds development compared to other regions part 1” under “Amhara’ are eveicted Amhara from Gura Ferda and other areas children and women sheltered in the AEUP office (Hailu Shaul lead party) in Addis Ababa. While the Tigrayans are having a good time enjoying their century of joy with the expense of others. Please check this two documents to compare my claim and argument is right or wrong.
The First one is development in Gonder, Wollo and Shewa /Debrebirhan the second video document assessment is in Tigray by Dr Getachew Begashaw an economist by profession.

Ethiopia: The New Gondar

Tigray:10 folds development compared to other regions part 1

http://youtu.be/Ux9QwmUAMZY

seeing this document, my argument that Tigrayans are beneficiary and TPLF is racist and discriminatory group which I did argued for the last 21 years proved me right, that I was on the mark.

Thanks
